

Get Stainless Steel Enclosure NOW!

Need Your LCD to Last in Harshest Condition?

Winsonic are now offering rugged Stainless Steel Enclosure LCD Monitors. The monitor is anti-corrosive in design and contains no exposed paint. It also protects against windblown dust, rain, splashing water, directed water and external icing. Stainless Steel Enclosure LCD has been deployed in many outdoor applications standing up to extreme weather conditions. It's imperative in some industries such as Pharmaceutical, Medical, Food & Beverage, Outdoor Kiosks and Marine applications.

Currently available for Chassis & Panel Mount Series. Optional with brushed surface texture design from 5.7"~65".
